

## Smart Solutions Token – F1 Prediction World Championship Rules

### Participation Conditions:

Anyone can participate in the game by registering at <https://smartsolutionstoken.com/f1>. The condition for participation is owning 500,000 SST in the wallet provided at registration. The game organizer can check the amount of tokens set as a condition at any time during the game. If the condition is not met, the player will be excluded from the championship.

### Registration:

During registration, it is mandatory to provide a username (the real Telegram username with the @ symbol for accurate identification), email address, and BEP20 wallet address (where the condition of ownership is checked, and prizes are paid out). It is optional to specify who invited the player to the game. In this case, the inviter's Telegram ID must be accurately entered.

### Scoring:

1 point is awarded for each correct answer, except for guessing the pole time, which earns 10 points. If the prediction is not accurate but within a tenth of the result, 2 points are awarded. Furthermore, the scoring of the placings is as follows: 1st place hit - 1 point, 2nd place hit - 2 points, 3rd place hit - 3 points, 4th place hit - 4 points, 5th place hit - 5 points, 6th place hit - 6 points, 7th place hit - 7 points, 8th place hit - 8 points, 9th place hit - 9 points, 10th place hit - 10 points. Scoring is done automatically after each race when the administrator records the actual results.

### Prediction Options:

The prediction options page shows a countdown to the next prediction deadline. Predictions must be made on the following after selecting the current race weekend (Race):

Pole time: the pole position time, in the format MM:SS:CCC, e.g., 01:30.000

Fastest lap: the driver who achieves the fastest lap in the race

Pole: the driver who secures pole position

Position 1: the race winner

Position 2: the second-place finisher in the race

Position 3: the third-place finisher in the race

Position 4: the fourth-place finisher in the race

Position 5: the fifth-place finisher in the race

Position 6: the sixth-place finisher in the race

Position 7: the seventh-place finisher in the race

Position 8: the eighth-place finisher in the race

Position 9: the ninth-place finisher in the race

Position 10: the tenth-place finisher in the race

Rain: whether there will be rain during the race or not

Safety Car: whether the safety car will be deployed or not

DNF: how many will not finish

Double Up: the player plays for double points (can be used only once during the season!)

Votes can be changed within the prediction deadline.

### Invitation:

Throughout the season, there is an opportunity to invite additional players to the game. Each invitee

earns 2 bonus points. The invitee must specify who invited them at registration and must also own (or purchase) a minimum of 500,000 SST. Invitation points do not count towards the race weekend prediction results but are added to the player's points in the overall table.

#### Rewards:

After each race, the top 8 predictors win prizes according to the prize table. In the event of a tie, the top 8 predictors still benefit. In case of multiple ties, a higher value in SST is always paid out, and for other tokens, we calculate an average based on the number of participants. For example, if there is a tie for first place among 4 players, they each receive 60,000 SST, and the amounts designated for 2nd, 3rd, and 4th places are not paid out. They are followed by the player in second place (fifth in order) with the reward for the 5th place. For other tokens, based on the above example, the top four in the tie receive the total prize amount divided by four. For Vizslaswap, it would be  $(220+210+160+140)/4$ .

Prizes are paid out after the race weekend concludes, to the BEP20 wallet address provided at registration. We cannot take responsibility for typos made during registration, so it is necessary to provide it carefully.

#### World Championship:

At the end of the season, we crown a world champion. The top three finishers in the world championship receive valuable physical prizes. As soon as we have specifics regarding these, we will announce them in a separate statement.

In all remaining questions, we proceed following the logic of reasonableness.
